

MISSIONARY RIDGE LEARNING COMMUNITY

GESTAMP

4120 JERSEY PIKE, CHATTANOOGA, TN 37421 | 423-661-8360

Gestamp Work-Based Learning Program strives to bridge the gap between education and career by offering industry exposure through a hands-on, guided learning experience. Gestamp is an international company dedicated to the design, development and manufacturing of metal automotive components. Students will work in the departments of sorting, assembly, laser operations, and other production areas.

Students have the opportunity to become certified journeymen through Gestamp's USDOL Assembly Operator Apprenticeship program. Upon completion of their high school credits students are eligible to enroll in Chattanooga State's USDOL pre-apprenticeship program to become Certified Production Technicians which can be a segue into either multi-craft maintenance or tool & die apprenticeships.
